REDEFINING SOLAR POWER

NET ZERO

THROUGH SOLAR ENERGY

from compliance to value creation

About Aara

Committed to reduce carbon emissions AARA looks forward to partner with like minded companies who are looking to achieve ESG Goals. With rising electricity costs and growing compliance, Solar power projects are the best alternative to generate energy in sustainable way.

AARA specializes in the design, engineering and installation of industrial and commercial solar power projects and have installed over 300+ projects.

Promising maximum generation with highest ROI, comes with experience and in-depth expertise in delivering high performing solar power projects. Optimizing the total project life cycle of solar power in terms of yield, costs and performances is our forte which has translated to amazing payback for our customers.

Companies can go beyond savings and compliance to achieve better operational efficiencies, better consumer preferences and, explore the global supply chain benefits. AARA aims to optimize this value for you through net zero & solar.
